NEWSLETTER TO SECONDARY SCHOOLS

VOLUME IV, NUMBER 1

OCTOBER 1966

Miami-Dade Junior College's Second Major Campus Nearing Completion in South Dade.

WELCOME TO SOUTH CAMPUS

SOUTH CAMPUS, ROBERT H. McCABE, VICE PRESIDENT

The South Campus of Miami-Dade Junior College will move on to its beautiful new campus site this fall. The facilities under construction include a 400-station independent study center, a library with more than 1,500 stations, an advanced computer center, 4,000 parking places, and classrooms, laboratories, and other facilities to support a student body of 6,000. The program will include transfer programs, two-year semi-professional programs, and non-credit continuing education courses. Other features are Week-end College, Community Talent Program, courses for advanced high school students, and Florida Atlantic University extension courses.

To operate this program, a competent, experienced faculty was recruited from across the nation. The 131 faculty members have earned degrees in 114 colleges and universities in 38 states and 4 foreign countries. Two of each three members have college teaching experience gained in 79 colleges and universities including Harvard, Duke, Stanford, Ohio State, The University of Istanbul, and The University of Montreal. Forty per cent of the academic faculty have at least one year of graduate work beyond the master's degree, and one of each six have earned doctorates.

Dade County has one of the nation's outstanding high school programs, and we are determined to keep pace by building programs that will allow students a smooth transition from the diverse high school curricula to the college program. Despite the problems of rapidly growing student members, we are committed to personalizing the college operation.

It is my hope that the campus can serve you, as well as your students, in the near future.

OPEN HOUSE - NORTH CAMPUS - NOVEMBER 13, 1966 - 2:30-4:30 P.M.

NEW APPOINTMENTS and PERSONNEL CHANGES

NORTH CAMPUS

Dr. Mary-Jeanette Taylor, Dean of Student Personnel Services

Dr. Taylor has been with Miami-Dade since 1962. She was co-chairman of the Self-Study Committee and the first and only faculty member to be named Distinguished Service Professor. Under Dr. Taylor's direction are counseling, program advisement, testing, student activities, financial aid and health services. She is located in Scott Hall, Room 1105, telephone 685-4513.

Dr. David Shuford, Dean of Men

Dr. Shuford serves in a new position and is located in the office of Dean of Student Personnel Services, Scott Hall, Room 1108. Dr. Shuford was Director of Student Activities, 1964-66.

Mr. Thomas McFarland, Director of Financial Aid

Mr. McFarland fills the position formerly held by Mr. Raymond Korngold when the area was known as Student Welfare. Mr. McFarland is located in Scott Hall, Room 1113, telephone 685-4328.

Mr. Leon G. Robinson, Director of Student Activities

Mr. Robinson has been with Miami-Dade since its opening. He served as Associate Director of Student Activities 1964-66. He is located in the Student Center, Room 616, telephone 685-4477.

Mr. John Kelly, Assistant Registrar

Mr. Kelly replaces Mr. David McOuat, who has accepted a position with the Board of Regents in Tallahassee.

Mr. Harold L. Buell, Administrative Assistant to the Vice President

Mr. Buell is filling a new position and will be working closely with Mr. Ambrose Garner, Vice President, North Campus.

Dr. William A. Weber, Director of the Division of Medically-Related Programs

In announcing Dr. Weber's appointment, Dr. Masiko commented, "This is the first step in building a comprehensive program of paramedical studies at Miami-Dade which, when fully implemented will provide curriculums in some 35 medical technologies in addition to our already successful RN nursing program."

SOUTH CAMPUS

Dr. James Hammons, Administrative Assistant to the Vice President

Dr. Hammons is filling a new position and will be working closely with Dr. Robert McCabe, Vice President, South Campus.

Mr. J. Thomas Stewart, Jr., Assistant Registrar

Mr. Stewart is filling a new position. He has been teaching mathematics at the North Campus.

Dr. William Stokes, Director of Athletics and Chairman of Physical Education

Dr. Stokes fills a new position.

Mr. James Penick, Business Manager

Mr. Penick fills a new position.

Mr. William R. Aufort, Financial Aids Administrator

Mr. Aufort is filling a new position.

MIAMI BEACH CENTER

Mr. Robert Filippello, Chairman of the Miami Beach Center

Mr. Filippello is filling the position formerly held by Mr. Albert Markovitz.

CENTRAL ADMINISTRATION

Mr. Theodore A. Koschler, Vice President for Administration

Mr. Koschler formerly served as Director of the Computer Center and Federal Assistance Program.

Mr. James F. Groark, Vice President for Development

Mr. Groark fills a new position. Last year he served as Vice President for Student Affairs.

Mr. Leonard Bethards, Director of Personnel

Mr. Bethards served as Program Advisor and on the instructional faculty at North Campus.

Mr. Claude R. Phillips, Jr., Budget Director

Mr. Phillips has served on the instructional faculty of North Campus.

Mr. Charles I. Suplee, Director of Physical Plant

Mr. Suplee fills a newly created position.

FALCON TIMES AND FALCON YEARBOOK WIN AGAIN

The Falcon Times won the top national award for general excellence for the fifth consecutive year, and the Yearbook, the Falcon, won top spot in the Florida competition.

WELCOME TO NORTH CAMPUS

NORTH CAMPUS, AMBROSE GARNER, VICE PRESIDENT

We at Miami-Dade Junior College recognize and take seriously the responsibility for providing higher education to the high school graduates and the adult population of Dade County. We appreciate the contributions which you have made to the academic and emotional backgrounds of these young people.

During the coming year, joint committees from the instructional divisions of the college and staff members from the secondary schools will be working on arrangements for advanced placement and other benefits for able high school students. In this connection, many of you will be visiting the North Campus, and we hope to make your visits as informative and beneficial as possible. Allow me to bid you welcome to visit the campus at any time you wish.

This new \$2½ million Science and Technology Building was completed for opening at the beginning of the Fall Term this year at Miami-Dade Junior College's North Campus. It contains 22 laboratory-workshop-drafting room combinations, 18 adjoining classrooms, a large cylindrical teaching-conference room, and 90 offices for administrators and faculty.

MIAMI BEACH CENTER OPENS

The Miami Beach Center, housed in the Ida M. Fisher Junior High School, opened this fall as a North Campus satellite with a credit curriculum limited to basic freshman-level evening classes. It will follow the same calendar as the North Campus.

COLLEGE ENROLLMENT PROJECTION STUDY

Dr. John Webb, Chairman of the Department of Economics at Florida Atlantic University, is heading a cooperative study with junior colleges and other educational institutions in Southeast Florida to attempt to bring into use information that already exists, but is nowhere assembled in order that colleges, public and private, can have accurate estimates for expansion and planning.

Mr. Wilfred Charlton, Registrar at Miami-Dade Junior College, is working with Dr. Webb and others from Florida Atlantic University on this important study.

SENIORS MAY TAKE COLLEGE COURSES

South Campus has developed a plan announced in a letter of May 26 to Assistant Principals for Guidance in the South, Southwest, and South Central Districts, which provides an opportunity for selected high school seniors to enroll for credit courses on the campus on Saturday mornings.

North Campus personnel is working with personnel in the North Central, Northeast, and Northwest Districts and will announce a program which probably will begin in January, 1967.

OPEN HOUSE, NORTH CAMPUS

You and all members of your faculty are cordially invited to attend Miami-Dade Junior College "Open House" at the North Campus, 11380 N.W. 27th Avenue, on Sunday afternoon, November 13, 1966 from 2:30 p.m. to 4:30 p.m. All divisions will provide displays, programs and entertainment, and all buildings will be open. The Science and Technology Building, the newest building on the North Campus, will be of special interest. We urge you to encourage students and their parents to attend.

ARTISTS SERIES

November 10 -- Dereck & Ray, Duo Piano Team, North Campus, 1-3 p.m., 8-10 p.m.

FINANCIAL AID, FALL TERM 1967-68

Students who will need financial assistance to attend Miami-Dade in the fall term, August, 1967, should apply for scholarships and loans by April 1, 1967, to obtain priority consideration.

Although financial aid has been awarded for the full 1966-67 academic year, some funds may be made available for the summer term. Students who wish to get an early start on their college work should apply by February 1, 1967, if financial assistance is needed.

ADMISSIONS COMMITTEE APPOINTED

A ten-member Admissions Committee, composed of five faculty members from the South Campus and five from the North Campus, has been appointed to recommend college-wide admissions policies. The representatives of each campus meet separately as a sub-committee to resolve problems which relate to their particular campus. Mr. Douglas Matthewson, Director of Admissions for both campuses, serves as chairman of the committee.

EARLY START CAREER PILOT - SUMMER PROGRAM

During the 1966 Summer Term, selected high school seniors were enrolled in career pilot training. Two classes in flight theory and two classes in flying were involved. The South Campus had nine students enrolled, while the North Campus had ten. These 19 students represented nine local high schools.

In general, the interest of the high school group was greater than the regular college student. The program was most successful.

NEW COMPUTER SYSTEM

Installation of a new "Third Generation" computer system in the North Campus Computer Center gives the College a claim to another nation-wide first. Miami-Dade is the first-and-only junior college in the nation with a complete IBM System 360. The number of students enrolled for data processing courses this fall went over the 2,400 mark.

Miami-Dade provides two-year data processing programs with two options -- business and science. With employer demand in both areas continuing to exceed supply of trained personnel, employment is virtually at the 100 per cent mark.

An IBM System 360 will be installed in the South Campus Science and Classroom Building and will be ready for use in December, 1966.

TV PROGRAMS

Channel 7 - Junior College Review - Saturday - 11:30 a.m.

For the fifth year, Channel 7 will carry Junior College Review, a program directed by Dr. William C. Doster, Director of Humanities, North Campus.

Channel 10 - College Profile - Sunday - 9:30 a.m.

For the fourth year, Channel 10 will carry College Profile, a program directed by Mr. Charles H. Walker, Dean of School and College Relations.

DRAMA PRESENTATION AT NORTH CAMPUS

The Pen Players of Miami-Dade Junior College raised the curtain on a season of comedies October 19 with "The Taming of the Shrew." Their next presentation will be "The Fantasticks," New York's longest running off-broadway hit, opening November 30. Admission for students is 75 cents; reservations may be made by calling 685-4357.

SPRING SPORTS BRING NATIONAL HONORS

The 1966 Golf Team, coached by Guy Childers, won the National Junior College Athletic Association Championship in Miami in May.

The 1966 Tennis Team, coached by Tom Lazzaro, captured the National Championship in National Junior College Athletic Association competition in Ocala.

The nationally known baseball team, the Falcons, went to the National Tournament in Grand Junction, Colorado and was runner-up. The Miami-Dade Junior College Baseball Team is coached by Dr. Demie Mainieri, the Director of Athletics and Chairman of the Physical Education Department. Dr. Mainieri's team, two years ago, won the National Tournament in Grand Junction, Colorado.

Congratulations to all coaches and athletes for these three great records. The Falcons won one regional championship (baseball), and three state championships (baseball, golf, and tennis).
