

Course Description

ATF2400 | Multi-Engine Pilot Flight (Multi-Engine Land - MEL) | 1.00 credit

This course provides the flight training required to prepare the student to safely conduct flight as a Multi-Engine Pilot. Upon satisfactory completion of this course, and the FAA oral and practical exams, the student will receive a Federal Aviation Administration Multi-Engine Rating. This course includes 15 hours of flight. Prerequisites: FAA Private Pilot Certificate and ATT2133.

Course Competencies:

Competency 1: The student will demonstrate the ability to act as a commercial pilot by:

1. Manipulating the controls of a multiengine aircraft
2. Performing the following procedures and/or maneuvers within the applicable FAA airman certification standards (ACS)
3. Conducting preflight preparation
4. Conducting preflight procedures
5. Displaying safe airport operations
6. Conducting takeoffs, landings, and go-arounds
7. Showing performance maneuvers
8. Showing ground reference maneuvers
9. Showing navigational procedures
10. Showing slow flight and stalls
11. Performing emergency operations and VMC demonstrations
12. Performing high-altitude operations
13. Performing postflight procedures

Learning Outcomes

- Communicate effectively using listening, speaking, reading, and writing skills
- Formulate strategies to locate, evaluate, and apply information
- Use computer and emerging technologies effectively
