Florida Postsecondary Degrees

According to the most recent data (the 2019 Florida Economic Security Report), the associate degree is the most awarded degree in Florida, with 353,047 degrees awarded between academic years 2012-2013 to 2016-2017. This includes 279,256 associate in art (AA) degrees, 69,683 associate in science (AS) degrees and 4,108 associate in applied science (AAS) degrees. The bachelor's degree is the second most awarded degree in Florida, with 330,812 degrees awarded between those two academic timeframes. Meanwhile, more than 106,400 master's, specialist's and doctorate degrees were awarded.

Madeline Pumariega | Miami Dade College

Tenure: 1.5 years

Institution Type: State College

Year Established: 1960

Enrollment: 120,000

Economic Impact: An economic impact study showed that MDC and its alumni contribute more than \$3 billion annually to South Florida's economy.

Main Campus Address:

300 N.E. Second Ave.
Miami, FL 33132-2297

BACKGROUND / HISTORY OF LEADERSHIP

Pumariega is the first female and fifth president to lead MDC. Pumariega's love for academics and service excellence began as a student at MDC and continued during her 20 years of service at the college in positions of ascending responsibility, culminating in her role as Wolfson Campus president. In the following years, she was president of Take Stock in Children; chancellor of the Florida College System; and executive VP and provost of Tallahassee Community College, before returning to MDC.

ACCOMPLISHMENTS DURING TENURE

President Pumariega has championed a new strategic plan for MDC focusing on five key priorities:

1. Reimagining for student success.
 2. Accelerating academic excellence and innovation.
 3. Valuing a culture of care to advance student outcomes.
 4. Fueling the talent needs of a global economy.
 5. Securing the future of the college.
- This transformational work is well on its way.

Pumariega has also prioritized working with business partners to identify the skills needed and tailoring education programs to match those needs. This intentional forming of strategic alliances and job pathways accelerates each graduate's ability to enter the workforce immediately.

LEADERSHIP ROLE

Pumariega is the first female and fifth president to lead MDC. She is a big proponent of collaborative leadership and creating a culture of care where everyone is valued and respected. Listening is also a top priority for Pumariega.

INSTITUTION INVESTMENT INITIATIVES

As the Miami tech and startup ecosystems grow, our funding partners, faculty and industry allies are joining together through MDC Tech to ensure our students are well-equipped to advance in their existing careers, or upskill into new ones. Students can choose from a wide host of degree options and rapid credentials in high-tech, in-demand fields such as animation and gaming, artificial intelligence, cloud computing, cybersecurity, data analytics, digital marketing, electric vehicle technology, entrepreneurship, health care and much more.

GOALS FOR THE INSTITUTION

Pumariega is passionate about developing leaders and building thriving communities. She recognizes higher education's role in transforming lives, and is designing her presidency to position the college to deliver on its mission in a post-pandemic, technology-enabled world.

PERSONAL MOTIVATION

Faith and family drive Pumariega's life. In addition, being a mentor keeps her grounded and focused. She often says we all have the duty of leaving the next generation better than ours.

AFFILIATED CAUSES / NON-PROFITS

Pumariega has prioritized volunteer service throughout her career. More recently, she was installed as a member of the Orange Bowl Committee and is serving as a mentor, or "big," with Big Brothers Big Sisters.

BOARD POSITIONS / APPOINTMENTS

- Board member, Greater Miami Chamber of Commerce
- Trustee, Pace Center for Girls
- Trustee, The Miami Foundation

“ As democracy's college, we are committed to ensure that every student has a path to the American dream and is supported through it.”

As a player, Doral Academy boys' soccer coach Pamela McDonald led Barry to four conference titles in a row.

A LOOK AT 50 YEARS OF TITLE IX through 50 influential women in South Florida sports

Even before Title IX went into effect in 1972 and required colleges to provide equal opportunities for women's sports, South Florida was a unique hotbed for women in sports.

A Miami Hurricanes tennis player in the 1940s played at Wimbledon while she was still in school. Multiple Miami golfers counted themselves among the best amateurs in the world. The university was looking to create opportunities for women, even before the federal government required it.

Across the past 50 years, Hurricanes have won national championships, Barry University has dominated in several Division II women's sports, and smaller schools like Keiser University, St. Thomas University and Florida Memorial University are trailblazers in new sports and programs.

This is a look at 50 years of Title IX across the region, through 50 influential women in sports.

- **Doris Hart, Miami women's tennis, 1947-1949:** Long before Title IX gave women real opportunities in college athletics, Hart was an international tennis star while attending Miami. She won the doubles title at Wimbledon in 1947 while she was still in college, then went on to win six major championships in singles.
- **Judy Eller-Street, Miami women's golf, 1958-1961:** Eller-Street was Miami's first female All-American, representing the university as a golfer more than a decade before the start of Title IX. She won the United States Women's Amateur in 1958, played in the 1960 Curtis Cup at just 19 and won the Hurricanes' first women's national championship in 1959. She returned to golf for Division II Barry University in 2002 at 61, eligible because she competed for the Hurricanes before women's golf was an NCAA sport.
- **Roberta Albers Speer, Miami women's golf, 1964-1967:** Speer was the second woman inducted into Miami's Sports Hall of Fame and the second woman to win a national title for the Hurricanes in 1965, even getting featured in Sports Illustrated in an era before Title IX started

to make women's sports more mainstream.

- **Isabella Hutchison, Miami women's athletic director, 1965-1979:** Hutchison arrived at Miami in 1965 to start the women's intramural sports program. She went on to coach various sports, including women's tennis, and became the women's athletic director in 1977. When Title IX began in 1972, Hutchinson helped the Hurricanes start a full recruiting program for women, making Miami the first school to do so.
- **Ann Laughlin-Fulginiti, Miami women's golf, 1972-1974:** Laughlin-Fulginiti was one of Miami's first stars of the Title IX era, earning All-America honors in 1972 and 1974, and winning an Association for Intercollegiate Athletics for Women title in 1972, also helping the Hurricanes win their second team championship.
- **Pat Bradley, FIU women's golf, 1972-1974:** Bradley immediately gave FIU a women's star. After getting her associate's degree from Miami Dade College, she stayed in Miami and golfed for the Panthers for two years, becoming FIU's first All-American. She went on to win six major championships.
- **Judy Blucker, FIU administrator, 1972-2007:** Blucker is the mother of women's athletics at FIU, working as an assistant professor in the School of Education and wondering why the university didn't have any women's teams. The school was founded in 1972 — the same year as Title IX — and Blucker helped the athletic department launch its women's teams, even coaching softball and women's volleyball.
- **Dawn Frady, Miami women's swimming and diving, 1973-1976:** Swimming and diving was the first women's powerhouse at Miami and she was a key contributor to Association for Intercollegiate Athletics for Women championships in 1975 and 1976. She won individual titles in the 200- and 400-yard freestyles in 1975.
- **Sharon Berg, Miami women's swimming and diving, 1973-1976:** Berg was one of the first four

women to earn a swimming and diving scholarship to Miami, and she was the first Hurricane to win multiple individual national titles. She was a four-time All-American and won the 200-yard breaststroke and 400 freestyle in 1974. She was also part of two Association for Intercollegiate Athletics for Women championships in 1975 and 1976.

- **Cathy Morse, Miami women's golf, 1974-1977:** Morse was the fourth of five national-champion women's golfers for Miami in a 20-year span when she won the title in 1977. The Hurricanes also won their first of two straight Association for Intercollegiate Athletics for Women championships in 1977.
- **Janet Buchanan-Kerr, Miami women's swimming and diving, 1975-1978:** Buchanan-Kerr is the most decorated swimmer in Miami history, winning five individual national titles and earning All-American honors in 17 different events. She was the leader for two Association for Intercollegiate Athletics for Women championships in 1975 and 1976, elevating the Hurricanes to prominence they would sustain throughout the decade.
- **Cindy Russo, FIU women's basketball coach, 1977-1978, 1980-2015:** In her 36 years at FIU, Russo became perhaps the most successful coach in school history, retiring with the 15th-most wins in NCAA history and leading the Panthers to six NCAA tournaments.
- **Lin Dunn, Miami women's basketball coach, 1978-1987:** Dunn was Miami's fourth coach, and the first to notch 10- and 20-win seasons in the early days of women's basketball as an NCAA sport. She was the president of the Women's Basketball Coaches Association (1984-1985).
- **Patti Rizzo, Miami women's golf, 1978-1981; Miami women's golf coach, 2010-2022:** As a player, Rizzo was a two-time All-American and the 1979 golfer of the year, according to Golfweek. She returned to coach at her alma mater in 2010.
- **Nancy Olson, FIU athletic director, 1979-1985:** Olson was FIU's first — and, so far, only — female athletic director and was one of only about a dozen female ADs around the country at the time. She led the Panthers' efforts to add men's basketball. She was also only the second woman in Florida to be a high school athletic director when she worked for Broward County Public Schools prior to her move to Miami.
- **Penny Hammel, Miami women's golf, 1980-1984:** She won Miami's fifth women's golf individual national title in 1983 and also led the Hurricanes to their only NCAA championship in any women's sport in 1984. She was a two-time All-American and Golfweek's 1983 golfer of the year.
- **Robin Harmony, Miami women's basketball, 1980-1984; St. Thomas University women's basketball coach, 2006-2013:** Harmony is one of the greatest players in Miami history, finishing her career 10th in scoring, and she followed up with multiple coaching stops in South Florida. First, she was an assistant coach with the Hurricanes for 18 years before leaving to become St. Thomas' first women's basketball coach in 2006. She led the Bobcats to three National Association of Intercollegiate Athletics tournaments.
- **Wendy Williams, Miami swimming and diving, 1985-1989:** After Greg Louganis graduated, Williams was the next face of Miami diving, becoming the first diver other than Louganis to win a national title. She was also the first former Hurricane woman to win an Olympic medal in diving when she claimed bronze in the 10-meter platform at the 1988 Summer Games.
- **Jan Bell, St. Thomas University's director of sports administration programs and faculty athletics representative, 1985-present:** Bell has been teaching classes in St. Thomas' renowned sports administration program since 1985 and became the faculty athletics representative in 1997. The school inducted her into its sports hall of fame in 2014.

Connie Nickel, Miami administrator, 1987-2011: Nickel spent 20 years at Miami as the associate athletic director for internal operations and senior women's administrator. As the women's administrator, she oversaw the start of women's soccer and women's volleyball at the school.

Ferne Labati, Miami women's basketball coach, 1988-2005: Labati led Miami to its first NCAA Tournament in her first season and finished her career as the winningest basketball coach — men's or women's — in school history, until Katie Meier, her successor, passed her last year. Labati led the Hurricanes to their only Sweet 16 in 1992 and their only conference tournament titles in 1991, '92 and '93.

Heather Jaeger, Barry University women's soccer, 1990-1993: Barry won three Division II women's national championships in five years from 1989-1993, and Jaeger was part of back-to-back championships in 1992 and '93. She was a two-time All-American and the National Player of the Year in 1993.

Noemi Lung, FAU women's swimming and diving, 1990-1992; FIU swimming and diving coach, 2002-2010: Lung, who won two individual medley medals for Romania at the 1988 Summer Olympics, is one of the most important figures in South Florida swimming. She was the NCAA's Female Athlete of the Year in 1992 at FAU and later was the Owls' associate coach from 1997-2000. She then went to FIU, where she started the Panthers' swim team and coached from 2002-2010. After she left college coaching, Lung was the director of the Miami Dade College aquatic and fitness center from 2010-2021.

Amy Deem, Miami track and field coach, 1990-present: Deem was the Big East Conference Coach of the Year seven times in her nine seasons in the league and has sustained success for more than 30 years. All 15 of Miami's women's track and

field national champions have come under Deem's watch, with the first in 1992 and the most recent in 2019.

Gillian Russell-Love, Miami women's track and field, 1991-1995: She was Miami's first national champion in track and field, winning five titles as a hurdler from 1992-1995. The Hurricanes have won 17 total in track and field, with 15 by women.

G. Jean Cerra, Barry University athletic director, 1991-1997: Barry won six Division II national championships with Cerra as athletic director, but her contributions date back even further. In the 1970s, she was one of the original advocates for Title IX and worked for the Missouri Tigers to help them become one of the first athletic departments to merge their men's and women's teams.

Jenny Keim-Johansen, Miami women's swimming and diving, 1997-2000: She won two individual national titles at Miami in 1999 and 2000, and went on to represent the United States at the 1996 Summer Olympics.

Sherri Pla, FAU women's basketball, women's golf, women's cross country and softball, 1994-1999: Pla came to FAU as a point guard and is still the Owls' all-time leader in assists, but made a mark on the entire athletic department because she was frequently asked to play for some of the school's other young teams. She joined the softball team despite never playing before and wound up playing professionally, ran cross country, and picked up golf as a senior and ultimately made it her professional career.

Octavia Blue, Miami women's basketball, 1995-1998: Blue, who went to high school at Nova in Davie, was an All-American at Miami in 1998 and the Hurricanes' first Women's National Basketball Association draft pick. She returned to Miami as an assistant coach in 2012 before leaving for the top job with the Kennesaw State Owls in 2021.

Joan Joyce, FAU softball coach, 1995-present: Joyce is the only coach in FAU softball history and one of only 45 coaches

with 1,000 NCAA wins. With Joyce in charge, the Owls have made the NCAA Tournament 11 times and been one of FAU's most consistent programs.

Yolanda McCray, Miami women's track and field, 1996-1999: McCray, who

went to high school at Miami Southridge, was UM's second female national champion in track and field, winning the 100-meter hurdles for her hometown school in 1999.

Laura Courtley-Todd, St. Thomas University athletic director, 1996-present:

Courtley-Todd is still one of the few female athletic directors in Florida and has been at the helm for more than 25 years. Under her leadership, St. Thomas became one of 15 National Association of Intercollegiate Athletics schools to add flag football as a varsity sport in 2021. Keiser University and Florida Memorial University are two of the others.

Paige Yaroshuk-Tews, Miami women's tennis coach, 1998-present: After four seasons as an assistant coach, Yaroshuk-Tews took over as head coach in 2001 and has helped two Hurricanes win national championships in singles.

Pamela McDonald, Barry University women's soccer, 1999-2002: McDonald helped Barry win four consecutive Sunshine State Conference titles without losing a single league game. She's now the boys' soccer coach at Doral Academy and won back-to-back state titles in 2021 and '22, becoming the first female coach to lead a boys' team to a Florida High School Athletic Association title.

Lauryn Williams, Miami women's track and field, 2001-2004: Williams might be the most decorated Miami athlete of all time, winning a national title in the 100-meter dash in 2004, then going on to compete in four Olympics. She won gold in the 400 relay at the 2012 Summer Olympics, silver in the 100 at the 2004 Summer Olympics and even a silver in bobsled at the 2014 Winter Olympics. She was the first American woman

to medal in both the Summer and Winter Olympics.

Karla Bersano, Barry University women's volleyball, 2001-2004: Barry volleyball is one of three women's programs with at least three Division II national championships, and Bersano was part of two of them in 2001 and 2004, thrice earning All-America honors.

Tamara James, Miami women's basketball, 2002-2006: James, who went to high school at South Broward, is Miami's only four-time All-American in women's basketball and the Hurricanes' all-time leading scorer. She's now the mayor of Dania Beach.

Tabia Charles Collins, Miami women's track and field, 2004-2006: Charles Collins earned 10 All-American honors — the second-most in program history — and won a national title in the triple jump in 2006. She represented Canada at the 2008 Summer Olympics.

Audra Cohen, Miami women's tennis, 2005-2007: Cohen, who went to high school at St. Thomas Aquinas, was Miami's first singles national champion in tennis in 2007. She's now the coach of the Oklahoma Sooners.

Katie Meier, Miami women's basketball coach, 2005-present: Meier became the winningest coach in Miami basketball history — men's and women's — last season and led the Hurricanes to the NCAA Tournament for the eighth time. She was the Associated Press Coach of the Year in 2011.

Brittany Viola, Miami women's swimming and diving, 2007-2011: Viola won platform national championships in 2008 and 2011, and competed for the United States at the 2012 Summer Olympics.

Terea Brown, Miami women's track and field, 2007-2011: Brown won a national title in 400-meter hurdles in 2011 and competed for the United States in the 2012 Summer Olympics.

Sandra Changkija, Nova Southeastern University women's golf, 2008-2011: Changkija is only NCAA golfer at any level to be the

national player of the year in four straight seasons, and her play powered Nova Southeastern to the most successful run it has had in any sport. The Sharks won four straight Division II national titles from 2009-2012.

Barbi Pocza, Barry University women's tennis, 2009-2011: Pocza was the Division II National Player of the Year in 2011 and led Barry to its first women's tennis national championship, kicking off a dynasty that has yielded seven titles.

Shakima Wimbley, Miami women's track and field, 2013-2017: Wimbley, who went to high school at St. Thomas Aquinas, is Miami's most recent national-champion sprinter, winning the indoor 400-meter dash in 2017.

Estela Perez-Somarriba, Miami women's tennis, 2016-2020: Perez-Somarriba came from Spain to South Florida to play tennis at Miami and is the Hurricanes' most recent national champion, winning the singles title in 2019.

Michelle Atherley, Miami women's track and field, 2017-2021: Atherley is Miami's most recent national champion in track and field, winning the indoor pentathlon in 2019.

Lauren Bennett, Keiser University women's lacrosse coach, 2017-present: Lacrosse — and particularly women's lacrosse — is one of the fastest-growing sports in South Florida, and Bennett made history in 2021 by leading Keiser University to the first national title for a women's lacrosse team from the region.

Mia Vallee, Miami women's swimming and diving, 2019-present: Miami's women are still winning national championships today, more than 60 years after Judy Eller-Street won the first in 1959. Vallee won the one-meter diving national title this year.

Madeline Pumariega, Miami Dade College president 2021-present: Pumariega, who went to high school at Hialeah, helped the Miami Dade College basketball team make the Florida College System Activities Association championship tournament in 1986 and is now the first female president in the junior college's history.

Unstoppable Domains Partners with City of Miami to Offer Free Web3 Education for Miami Citizens

"Miami for Everyone" attendees and Miami Dade College students now eligible for free NFT domains and Web3 resources

MIAMI, June 17, 2022 /PRNewswire/ -- Unstoppable Domains (<https://c212.net/c/link/?t=0&l=en&o=3570070-1&h=2952036476&u=https%3A%2F%2Funstoppabledomains.com%2F&a=Unstoppable+Domains>), the leading Web3 digital identity platform and NFT domain name provider with 2.4 million registered usernames, has partnered with the City of Miami's Venture Miami (<https://c212.net/c/link/?t=0&l=en&o=3570070-1&h=1689334280&u=https%3A%2F%2Fventuremia.org%2Fabout-us%2F&a=Venture+Miami>) team to accelerate its local Web3 education effort.

(https://mma.prnewswire.com/media/1533165/unstoppabledomains_Logo.html)

Venture Miami will host its "Miami for Everyone" Web3 education event (<https://c212.net/c/link/?t=0&l=en&o=3570070-1&h=595437490&u=https%3A%2F%2Fwww.eventbrite.com%2F%2Fmiami-for-everyone-opportunity-workshops-tickets-340171781957&a=event>) from June 17-19, 2022 at Miami Dade College. The event will provide an inclusive and engaging environment for the community of Miami to learn about Web3, while giving skilled participants the opportunity to leverage their expertise to create social impact through Web3 and traditional technologies. Along with a full day of workshops catered towards people of all ages, levels, cultures, and skill sets, Miami for Everyone will feature a hackathon as well as networking opportunities.

Each guest at "Miami for Everyone" will receive a \$50 credit towards a NFT domain courtesy of Unstoppable Domains. In English and Spanish sessions, Unstoppable Domains will guide attendees through the process of creating a wallet, claiming their NFT domain, and keeping their wallet safe. Attendees will be taught how NFT domains can act as their digital identity, unlocking exciting opportunities across Web3. Students at Miami Dade College also have access to free NFT domains through Unstoppable Domains' university partnership network.

"Unstoppable Domains is pleased to support the great city of Miami on its mission to become the most Web3 and crypto-friendly city in the world," said Sandy Carter, SVP and head of business development at Unstoppable Domains. "We believe that access to free education and resources, including NFT domains, are key to unlocking the power of Web3 innovation and ownership."

Miami Mayor Francis Suarez assembled the Venture Miami team with the goal of making Miami the "capital of capital" with an economy that focuses on innovation, technology, and diversity, equity, and inclusion. Venture Miami supports regional collaboration amongst other local governments, economic development agencies, and organizations. It also provides support for founders, connects talent to jobs, and bridges connections between new-to-market technologies and the existing innovation ecosystem.

"We are excited to have partners like Unstoppable Domains offer greater accessibility into Web3 technologies, and look forward to the resources they will provide to our Miami Tech ecosystem," said Erick Gavin, Executive Director of Miami Ventures.

This is Unstoppable Domains' second ever city-wide domain giveaway. Recently, Unstoppable Domains partnered with Access Abu Dhabi, an organization that supports the expansion of women and minority-led businesses, to offer free domains to more than one million women residing in the UAE capital.

Unstoppable targets another city gTLD with free domains

Kevin Murphy, June 21, 2022, 11:47:23 (UTC), Domain Tech

Alt-root provider Unstoppable Domains has inked another partnership with a city that already has its own gTLD in the authoritative root.

The blockchain domains company said it has linked up with the City of Miami's Venture Miami project, which encourages tech investment in Miami, to offer \$50 in Unstoppable's alternative domains to anyone attending Miami Dade College or showing up at an event there over the weekend.

For nine out of 10 of Unstoppable's extensions, that's enough to buy at least one domain. The company does not charge renewal fees.

It's the second city recently that Unstoppable has partnered with, following its offer of free domains to all female residents of Abu Dhabi a couple of weeks ago. In both of these cases, the cities in question already have their own gTLD in the authoritative, functioning, ICANN root. Unstoppable's extensions, which are largely themed around cryptocurrency, mostly do not function without browser plug-ins.

While .abudhabi has only about a thousand registered domains, .miami, which was acquired from MMX by GoDaddy last year and has the city as a partner, has been more popular, with close to 16,000 names in its zone file currently.

Whether this can be dismissed as more "web3" hype or alt-root snake oil or not, Unstoppable seems to have secured a couple of pretty interesting marketing coups, and it will be interesting to see which city gets targeted next.

"Miami for Everyone" attendees and Miami Dade College students now eligible for free NFT domains and Web3 resources

MIAMI, June 17, 2022 /PRNewswire/ -- Unstoppable Domains, the leading Web3 digital identity platform and NFT domain name provider with 2.4 million registered usernames, has partnered with the City of Miami's Venture Miami team to accelerate its local Web3 education effort.

Venture Miami will host its "Miami for Everyone" Web3 education event from June 17-19, 2022 at Miami Dade College. The event will provide an inclusive and engaging environment for the community of Miami to learn about Web3, while giving skilled participants the opportunity to leverage their expertise to create social impact through Web3 and traditional technologies. Along with a full day of workshops catered towards people of all ages, levels, cultures, and skill sets, Miami for Everyone will feature a hackathon as well as networking opportunities.

Each guest at "Miami for Everyone" will receive a \$50 credit towards a NFT domain courtesy of Unstoppable Domains. In English and Spanish sessions, Unstoppable Domains will guide attendees through the process of creating a wallet, claiming their NFT domain, and keeping their wallet safe. Attendees will be taught how NFT domains can act as their digital identity, unlocking exciting opportunities across Web3. Students at Miami Dade College also have access to free NFT domains through Unstoppable Domains' university partnership network.

"Unstoppable Domains is pleased to support the great city of Miami on its mission to become the most Web3 and crypto-friendly city in the world," said Sandy Carter, SVP and head of business development at Unstoppable Domains. "We believe that access to free education and resources, including NFT domains, are key to unlocking the power of Web3 innovation and ownership."

Miami Mayor Francis Suarez assembled the Venture Miami team with the goal of making Miami the "capital of capital" with an economy that focuses on innovation, technology, and diversity, equity, and inclusion. Venture Miami supports regional collaboration amongst other local governments, economic development agencies, and organizations. It also provides support for founders, connects talent to jobs, and bridges connections between new-to-market technologies and the existing innovation ecosystem.

"We are excited to have partners like Unstoppable Domains offer greater accessibility into Web3 technologies, and look forward to the resources they will provide to our Miami Tech ecosystem," said Erick Gavin, Executive Director of Miami Ventures.

This is Unstoppable Domains' second ever city-wide domain giveaway. Recently, Unstoppable Domains partnered with Access Abu Dhabi, an organization that supports the expansion of women and minority-led businesses, to offer free domains to more than one million women residing in the UAE capital.

Inaugural Class of American Heart Hispanic Serving Institutions Scholars Complete Research Program

JUNE 21, 2022

SUBMITTED BY QUEST DIAGNOSTICS

Thirty students completed the American Heart Association (AHA)'s research program serving as the first-ever cohort of the Hispanic Serving Institution (HSI) Scholars Program, which provides career mentorship, leadership development, and research stipends to promising Hispanic students in science, technology, engineering, and mathematics (STEM) fields. The Research Symposium was held in Houston, Texas, where scholars shared presentations on their research and received medallions in a special ceremony to mark the completion of this program.

The HSI Program invests in aspiring Hispanic researchers and healthcare professionals. During the program, undergraduate students enrolled in biomedical and health sciences at HSIs participated in academic and career-enriching experiences for a full academic year.

“It has been an honor to guide the first class of our HSI Scholars and see them flourish through the Program where they learned about health disparities in Hispanic communities, how cultural sensitivity can provide safe and reassuring clinical spaces, and the importance of inclusivity in science,” said Mitzi Cardona, Portfolio Advisor, Collegiate Diversity Partnerships, Hispanic Serving Institutions, AHA. “We are grateful for the support of the Quest Diagnostics Foundation as it has helped us launch this vital program to support future leaders in healthcare.”

The inaugural class of the HSI Program was launched in September 2021 with the support of the Quest Diagnostics Foundation as part of our Quest for Health Equity (Q4HE) initiative. Q4HE, an over \$100 million initiative of Quest Diagnostics (NYSE: DGX) and the Quest Diagnostics Foundation, provides donated testing services, education programs, partnerships, and funding to support initiatives aimed at eliminating healthcare disparities that impact underserved communities across the US.

“Research has shown that increasing the racial and ethnic diversity of healthcare providers leads to reductions in health disparities through better communications, improved trust in the medical systems, and enhanced quality of care,” said Mandell Jackson, Vice President and General Manager, Q4HE. “We are proud to support the HSI Scholars program as part of our commitment to increase diverse representation in biomedical practice and research to create a sustainable impact to the healthcare ecosystem.”

While people of Hispanic heritage are the second-fastest-growing racial/ethnic group in the country, making up more than 18% of the population in the US, less than 6% of all physicians are of Hispanic heritage. This disparity is consistent in research and healthcare professions overall. The inaugural class of the HSI Scholars Program includes 30 students who are attending HSIs in California, Florida, Illinois, New York, Texas, and Puerto Rico.

Doctor Loren Blanchard, President of the University of Houston Downtown, delivered the keynote speech at the symposium. Doctor Blanchard noted that downtown Houston is one of the nation's most culturally diverse metropolitan areas and shared how the University has created an environment that welcomes and embraces students from all backgrounds.

"Thirty Scholars is just the beginning of the support required to bring more Hispanic scholars into our healthcare system," added Jackson. "We invite other companies and foundations to join with the American Heart Association to fund many deserving students seeking healthcare careers."

[Click here](#) to learn more about how Quest is teaming up with the AHA to reduce health inequities while expanding the pipeline to create a more diverse healthcare force.

Scholar spotlights

Valeria Rivas

Valeria is a sophomore majoring in biomedical engineering at Miami Dade College in Miami, Florida. As an AHA HSI Scholar, she has worked under the mentorship of Doctor Jyrko Correa, investigating "Biological and Mathematical Analysis of Embedding Genetic Codes in Euclidean Spaces."

"My grandmother, who does not speak English, needed a pacemaker, and I helped to translate the medical terms that her doctors were having a difficult time trying to convey to her," said Valeria. "I know firsthand how important Hispanic representation in healthcare is, and this experience helped inspire me during this program."

Jalen Crespo

Jalen is a senior majoring in biology at the City College of New York in the Bronx, New York. As an AHA HSI Scholar, Jalen has worked under the mentorship of Doctor Carlos Acevedo Suarez, investigating "COVID-19 and Pregnancy: A Literature Review."

"This program showed me that I can make a difference for patients and gave me the opportunity to make an impact through my research," said Jalen.

Bryan Medina

Bryan is a junior majoring in biochemistry and biophysics at the University of Houston in Houston, Texas. As an AHA HSI Scholar, Bryan has worked under the mentorship of Doctor Bradley McConnell, investigating "A long-acting β arrestin 'biased' agonist to selectively activate AT1R to confer cardioprotection during heart failure and COVID-19 cardiovascular complications."

"This program gave me a glimpse of my future, showed me that this is what I am meant to be doing, and opened the door to many opportunities," said Bryan. "The greatest lesson I learned during this experience is that all it takes is one success and that no one will remember how many times you failed, they only see when you win."

Irvin Solano Teran

Irvin is a junior majoring in biological and physical sciences with a major in sustainability at the University of Houston Downtown in Houston, Texas. As an AHA HSI Scholar, Irvin has worked under the mentorship of Doctor Elda Rueda, regarding the “Investigation of disease-causing genes through bioinformatic tools, genome annotation of mycobacteriophage.”

“My biggest takeaway from this program is the sense of family I have with the other Scholars,” said Irvin. “We are all in this together, and I know I will always be able to rely on my peers from this program.”

Araceli Garza

Araceli is a senior majoring in biology at the University of Houston Downtown in Houston, Texas. As an AHA HSI Scholar, Araceli worked under the mentorship of Doctor Elda Rueda, investigating “Transition Metal Ions Quantitation by Spectrophotometry and Titration.”

“One of the big things I’ve learned during this program is that I am not alone in this journey,” said Araceli. “There will always be struggles in life you need to keep striving and moving forward. It’s so rare to have people pushing for you and supporting you, and this program has it; I am so humble and grateful to be a part of it.”

National Pink Day June 23rd with The Women's Breast & Heart Initiative

8th Annual Summer Breast Cancer Awareness Day with WBHI and More!

By: *The Women's Breast & Heart Initiative*

MIAMI - June 21, 2022 - PRLog --

- **Fresco y Más, Jackson Health System and Other Partners Offering Mammogram Screenings and Prevention Education**
- **Miami Dade College Freedom Tower and FTX Arena Light Up Pink for Awareness and Remembrance**
- **Make a Difference and Join the Movement with #WBHIPinkDay to Help Transform and Save Lives**

MIAMI, Fla., June 21, 2022 –**The Women's Breast & Heart Initiative (WBHI)**—a leader in disease prevention & early detection community outreach—reminds women on National Pink Day, June 23rd, that *'You Matter, Get Your Mammogram'*, ensuring self-care this summer with timely breast and heart screenings.

You Matter. Get Your Mammogram.

With pink being the color representing breast cancer, WBHI's 8th Annual Summer Breast Cancer Awareness Day provides women with critical resources to help beat the odds of breast cancer. Through its community partnerships, WBHI offers mammograms for early detection, health education, care coordination and patient navigation year-round and on June 23rd under the umbrella theme, **#WBHIPinkDay**, engaging with the South Florida community and national audiences.

Bringing critical preventative care services to the community, WBHI partners with **Fresco y Más** in Hialeah on National Pink Day, June 23rd offering mammogram screenings at no cost and *by appointment only*. Women can contact WBHI to schedule their mammogram at 305-825-4081. Valued partner **Jackson Health System** will also be providing heart screenings, presenting a more comprehensive preventive care approach. **Macy's** adds some glamour to the day with a raffle for fragrance gift bags, while supporting good health for all women. Lucky winners will also receive a \$100 gift card for grocery items at **Fresco y Más**, while everyone who participates in the mammogram screening receives life-saving disease prevention and early detection education packages.

"Our summer breast cancer campaign on National Pink Day reminds women that *'You Matter. Get Your Mammogram'*, and practice disease prevention and early detection," states Andrea Ivory, WBHI's founder and executive director. "Breast cancer is diagnosed year-round, but the good news is that early detection and disease deterrent lifestyles transforms and save lives."

1 in 8 women will be diagnosed with breast cancer over their lifetime; and the death rate has increased. Delayed, or missed cancer screenings could mean diagnosis at a later stage with a poorer prognosis. In addition, WBHI will present risk reduction strategies for heart disease which is the leading cause of death for women.

The **#WBHIPinkDay** campaign includes in-store activities throughout **Misha's Cupcakes** locations with a specially designed, fundraising pink cupcake, and participating **Starbucks** offering breast cancer educational 'pink packs' with free coffee during select times. Committed partnership with **COX Media Group** and **Clear Channel Outdoor** amplify summer breast cancer awareness messaging. Additionally, **Miami Dade College Freedom Tower** and **FTX Arena** light up pink at sunset for community awareness and remembrance.

Everyone near and far is invited to support the initiative on social media with pink inspired images and messages, and the hashtag **#WBHIPinkDay** and tagging **Facebook @TheWBHI** and **Instagram**

MIAMI, Fla., June 21, 2022 –**The Women's Breast & Heart Initiative (WBHI)**—a leader in disease prevention & early detection community outreach — reminds women on National Pink Day, June 23rd, that 'You Matter, Get Your Mammogram', ensuring self-care this summer with timely breast and heart screenings.

With pink being the color representing breast cancer, WBHI's 8th Annual Summer Breast Cancer Awareness Day provides women with critical resources to help beat the odds of breast cancer. Through its community partnerships, WBHI offers mammograms for early detection, health education, care coordination and patient navigation year-round and on June 23rd under the umbrella theme, **#WBHIPinkDay**, engaging with the South Florida community and national audiences.

Bringing critical preventative care services to the community, WBHI partners with **Fresco y Más** in Hialeah on National Pink Day, June 23rd offering mammogram screenings at no cost and *by appointment only*. Women can contact WBHI to schedule their mammogram at 305-825-4081. Valued partner **Jackson Health System** will also be providing heart screenings, presenting a more comprehensive preventive care approach. **Macy's** adds some glamour to the day with a raffle for fragrance gift bags. While supporting good health for all women. Lucky winners will also receive a \$100 gift card for grocery items at Fresco y Más, while everyone who participates in the mammogram screening receives life-saving disease prevention and early detection education packages.

"Our summer breast cancer campaign on National Pink Day reminds women that *'You Matter. Get Your Mammogram'*, and practice disease prevention and early detection," states Andrea Ivory, WBHI's founder and executive director. "Breast cancer is diagnosed year-round, but the good news is that early detection and disease deterrent lifestyles transform and save lives."

1 in 8 women will be diagnosed with breast cancer over their lifetime; and the death rate has increased. Delayed, or missed cancer screenings could mean diagnosis at a later stage with a poorer prognosis. In addition, WBHI will present risk reduction strategies for heart disease which is the leading cause of death for women.

Miami Police Chief + FIU Bridge + Voter Registration Day

By **Brasco Polinni**

Last updated **Sep 28, 2021**

FOOD AND DRINKS

Patch

Happy Tuesday people from Miami! Today is **National Voter Registration Day**. Nearly **4.5 million voters** have so far registered to vote on the holiday. Are you registered?

Here's what's going on in Miami today.

First the weather today:

Humid and partly cloudy all day. High: 81 Low: 78.

Here are today's top stories in Miami:

1. **Miami's Police Chief Art Acevedo** is facing **Setback** after comparing them **Police station to the Cuban mafia** and attack commissioners. The city **would like a full investigation** although they do not have the power to fire the police chief. (WSVN)

2. **Demolition has started** on the **FIU pedestrian bridge** the **killed 6** in March 2018. The construction of a new bridge is to begin in **Summer 2023** and lasts about two years. (CBS Miami)

3. A. **Florida woman** from Palm Beach Gardens, **46-year-old Mei Cheung**, is accused by the police **Fire bomb attack on a Buddhist temple**. Video footage of a woman **Throw four incendiary bombs over a gate in the property** and **place a fifth fire bomb in a mailbox**. (AP News)

4. A. **Miami cop who was previously fired** for the call **Jewish script "garbage" in a resurfaced video** was now **fired again**, this time from Biscayne Park. There he worked as a reserve officer. **More than 1,000 Full-time police officers** Were working in Florida **previously fired** from **other state law enforcement agencies**. (Miami New Times)

5. **Miami Dade College** hosts **Voter Registration Day** Events today around the 8 campuses of the university and online. Events are **free and public**. They are partners **League of Women Voters of Miami-Dade County, Get involved in Miami, Catalyst Miami, motivation, Campus voting project, the Andrew Goodman Foundation, and NSe campus election engagement project**. (MDC news)

Today's Miami Daily is brought to you **from our friends at Ring, the home security company**. Ring can do a lot more than just doorbells: Check out the full range of smart home products on Ring.com. and **Thank you ring** for helping spread local news in Miami!

Today in Miami:

- **Voter Registration Day** at Miami Dade College. (all day)
- **Joint meeting of the Women's Economic Council and the Legal Committee**. (11:00 O'CLOCK)
- **Development Agency meeting in downtown Miami**. (3 p.m.)
- **Meeting of the city commission** – City of the coral gables. (4 p.m.)
- **Planning and zoning of hybrid meetings** – City of West Miami (7:30 PM)

Asesoría gratis en Miami-Dade para pedir el TPS

POR SONIA OSORIO
 sosorio@elnuevoherald.com

Un programa para brindar asistencia gratuita para solicitar el Estatuto de Protección Temporal (TPS) dirigido a las familias inmigrantes elegibles de Miami-Dade fue implementado por la organización Hispanic Unity of Florida (HUF).

Los servicios gratuitos de HUF para asistir con el proceso de la solicitud de

TPS están limitados a personas y familias de los países designados actualmente para ese alivio migratorio que residen en Miami-Dade, dijo la organización sin fines de lucro del Condado Broward dedicada a la población inmigrante por más de 40 años.

“El Condado Miami-Dade atrae a personas de todo el mundo que buscan un refugio seguro de lo que ocurre en sus países de origen. Al brindar apoyo a los inmigrantes y sus fami-

lias que buscan el TPS, estamos eliminando parte del miedo y la ansiedad de lo desconocido al ayudarlos a navegar un proceso que les brindará un puerto en la tormenta”, expresó Felipe Pinzón, presidente y director ejecutivo de Hispanic Unity of Florida.

Las personas elegibles en Miami-Dade pueden recibir asistencia gratuita con sus solicitudes de TPS llamando al (954) 964-8884 de lunes a viernes entre las 8:30 am. y las 5:00 pm y pueden acudir

con cita previa a estos dos lugares:

- Miami Dade College West (Lunes): 3800 NW 115th Ave. Doral, FL 33178
- Miami Beach Public Library (Martes a Viernes): 1601 NE 164th St. North Miami Beach, FL 33162

El programa estará disponible hasta el próximo 9 de septiembre de 2022.

HUF está trabajando en alianza con Catholic Legal Services (CLS) y Americans for Immigrant Justice (AIJ) para brindar estos servicios a través de una subvención

financiada por el Condado Miami-Dade.

Los criterios de elegibilidad de las personas dependerán de los avisos de designación y las fechas de vencimiento determinadas por los Servicios de Ciudadanía e Inmigración de los Estados Unidos (USCIS, en inglés), así como la prueba de residencia en el condado de Miami-Dade.

Para mayores detalles sobre la elegibilidad para TPS, visite el sitio web de USCIS.

Establecido por el Con-

greso de EEUU a través de la Ley de Inmigración de 1990, el TPS permite residir y trabajar legalmente en el país por un periodo de tiempo determinado a las personas beneficiarias de este alivio migratorio que no pueden regresar a su nación de origen debido a desastres naturales, conflictos armados u otras condiciones extraordinarias.

Eleazar Mora, El Ingeniero de 63 años

h...

“Nunca hay que rendirse. Yo estudié ingeniería y no pude dedicarle a la música todo el tiempo que quería, pero ahora estoy disfrutando una segunda vida”, afirma.

Miami, 16 de junio de 2022

Para el cantante Eleazar Mora, nunca es tarde para cumplir un sueño. El suyo, a los 63 años y después de una larga carrera como ingeniero, es competir con los grandes intérpretes musicales en los Grammy.

“Nunca hay que rendirse. Yo estudié ingeniería y no pude dedicarle a la música todo el tiempo que quería, pero ahora estoy disfrutando una segunda vida”, afirma Mora, cuya discografía incluye clásicos como «Recordando a Latinoamérica», «Bella Italia», «Venezuela Habla Cantando», «Simón: Una Orquesta, Una Voz», «Javier Solís: Una Orquesta, Una Voz» y «Nino Bravo, Una Orquesta, Una Voz».

Recientemente, presentó el segundo volumen de su álbum “Javier Solís, una orquesta y una voz”, en homenaje al ídolo mexicano que murió a los 33 años.

“Javier Solís nos demostró que se puede hacer una carrera corta, pero poderosa. Y llegar a ser ‘El rey del bolero ranchero’”, añade.

Mora presentará el disco el próximo 7 de julio, en el Miami Dade College Koubek Memorial Center: 2705 SW 3rd St., Miami, FL 33135, Estados

MIAMI —Para el cantante Eleazar Mora, nunca es tarde para cumplir un sueño. El suyo, a los 63 años y después de una larga carrera como ingeniero, es competir con los grandes intérpretes musicales en los Grammy.

“Nunca hay que rendirse. Yo estudié ingeniería y no pude dedicarle a la música todo el tiempo que quería, pero ahora estoy disfrutando una segunda vida”, afirma Mora, cuya discografía incluye clásicos como “Recordando a Latinoamérica”, “Bella Italia”, “Venezuela Habla

Cantando", "Simón: Una Orquesta, Una Voz", "Javier Solís: Una Orquesta, Una Voz" y "Nino Bravo, Una Orquesta, Una Voz".

Recientemente, presentó el segundo volumen de su álbum "Javier Solís, una orquesta y una voz", en homenaje al ídolo mexicano que murió a los 33 años.

"Javier Solís nos demostró que se puede hacer una carrera corta, pero poderosa. Y llegar a ser 'El rey del bolero ranchero'", añade.

Mora presentará el disco el próximo 7 de julio, en el Miami Dade College Koubek Memorial Center.

Actualmente, el cantante está por concluir una maestría en música en el prestigioso Berklee College of Music, de Boston.

Ha recibido importantes premios como Mara de Oro, Diamante, y Platino, 6 Discos de Platino y 4 Discos de Oro en el Festival de la Canción Latinoamericana de California, 7 Premios Platino del Festival de Video Hispano, 6 medallas de plata en los Global Music Awards, 4 FestiVegas de Platino y 3 de Oro en el Festival de la Canción de Las Vegas, 5 Premios de Platino y 8 Premios de Oro en los Lit Talent Awards, 1 distinción de Oro y 1 de Plata en los Communicator Awards.

Actualmente está nominado al Mejor Video Clásico en los Premios Pepsi, de Venezuela.
